Chief of Police Monthly Report-January 2025

February-11-2025

To: Mayor Steve Swanson and the City Council

Officer Training Attended: Reynolds has been attending multiple meetings regarding the public safety tax vs. the city paying out of pocket for dispatching fees.

Chief Hawk of Erie PD and Reynolds hosted active shooter training and medical training in Erie. Erie PD, Prophetstown, Tampico, Whiteside County Sherrif's Office and Morrison attended.

Calls for Service: 66 for the month of January

Pending and Future tasks/issues: We are still trouble shooting and figuring out the new central square system that the county switched to but we are starting to weed out the growing pains. This program costs the city roughly $5200 yearly.

Speaking with representatives from farmers National bank, we will possibly be receiving I scanner so patrol can check atm's and gas pumps to prevent fraud within the city limits.

Special Thanks to the school district. Erie has the old elementary school they are taking down. The were kind enough to let our Police Department take some office furniture. Also a thanks for letting us train in the school. We were able to get hands on training and allowed officers to physically breach doors within the building.

Officers: Officer Montanez was enrolled in his SRO certification for June.
